

Part# 8494

Note: Install bolts into the water pump first. Then determine the number of spacer washers needed between the bracket and intake manifold. This will vary with the thickness of the various brands of manifolds. START ALL MOUNTING BOLTS BEFORE TIGHTENING.

Note: Without proper spacer washers installed; Compressor will not align with pulleys.

Belt Info:

We use a belt length of 54 to 55" with this mount on installations in our shop. However; this can vary with the diameter of your pulleys and component adjustment.

Standard belt widths are 3/8" and are designated by the first number in the belt part number. Belt width by brand are as follows:
Gates: 7 Series followed by length
AC Delco: 15 Series followed by length
Dayco: 15 Series followed by length
NAPA: 15 or 25 Series followed by length
